FULL STACK WEB DEVELOPER

Passionate web designer with strong engineering background. Strong attention to detail, versatility, and enthusiasm while working in a fast paced work environment. My strong working knowledge of development techniques combined with my experience in collaborative, deadline-driven work environment makes me a great addition to develop high end full-stack web apps. Ready-set to take part in innovative projects such as assisting in preparing development project plans.

TECHNICAL SKILLS

Languages: HTML, CSS3, JavaScript, jQuery, Bootstrap, Express.js, React.js, Node.js, Java, handlebars
Database: MySQL, MongoDB, Firebase, Access,
Other: Heroku**,** Git, Bash, Microsoft Office Suite

PROJECTS

Day-dream : - Live Demo | Github Repo   **2019**
A Full-stack app that help user to plan vacations in a group or individual
- FoodMood is a restaurant finder app that allows the user to input their location as well as a specific type of cuisine they are in the mood for. Once it has this information, it will show results in an area.
- The application will utilize APIs, which will retrieve information both about the restaurants and about the routes to the restaurants. This information will ultimately help the user decide which restaurant to go to for the specific type of cuisine they are in the mood for.

Food mood : - Live Demo | Github Repo   **2019**
FoodMood is a restaurant finder app
- Designed an app that allows customers to plane vacation. he user to input their location as well as a specific type of cuisine they are in the mood for. Once it has this information, it will show them results in their area.
- Tools used: Node.JS, Express, MySQL, Sequelize, Express-cryptert and Handlebars
- The application utilize travel gadgets HTML and JavaScript applications which gives additional resources to search restaurants, plane ticket and hotel.

EXPERIENCE

Tolomatic   **Hamel, MN**
Manufacturing Engineering Tech   **2015 – 2018**
Partner the manufacturing line to identify and implement equipment process improvements and assist in failure analysis/ troubleshooting/ repair of test failed manufactured products.

EDUCATION

Bootcamp Certificate in Full Stack Web Development
University of Minnesota – Minneapolis/St.paul, MN
A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, Node Js, MySQL, MongoDB, Express, Handelbars.js & React.
